

I am currently undertaking a practice based Masters Degree in Creative Practice and doing some exploratory work with Debbie Beirne around trying to visualise clinical research in a more unique manner. This may result in a piece of artwork that may be displayed in the research setting at Leeds Teaching Hospitals.

I am gathering visual, statistical and aural/oral research to feed into my designs, with the intention of using them in a display context.

By completing this form you are giving me consent to use the information provided which may be used as part of my degree work. All names will be removed or substituted.
